Dear Sir:

Review of the above-identified issued patent has revealed that a printing error has occurred which requires the issuance of a Certificate of Correction.

More particularly, in the headings of the patent under the category "Notice", a sentence appears which states "This patent is subject to a terminal disclaimer." However, no terminal disclaimer was ever submitted in connection with the application leading to this patent and this fact is confirmed by the image file wrapper. It thus appears that the reference to a terminal disclaimer was a printing error by the U.S.P.T.O.

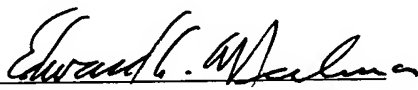

It is respectfully submitted that the foregoing error warrants the issuance of a certificate of correction.

Since the error occurred through no fault of the applicant, no fee is required.

A certificate of correction form is submitted herewith for the convenience of the Office.

The early issuance of a certificate of correction is respectfully solicited.
